

HONDA

CR-V

THE BAR HAS BEEN RAISED, AGAIN

The vehicle that defined a category now redefines what a compact sport-utility vehicle can be. Introducing the completely reimagined Honda CR-V: delivering a wealth of standard features and driver and passenger conveniences. Welcome to the new standard in comfort, style and versatility.

CR-V RVSi model shown in Black Interior

PERSONALIZED COMFORT

Every surface, every contour, and every feature has been thoughtfully designed to create a truly superior driving experience in every sense. The new CR-V brings together an impressive collection of features and conveniences, all designed with you in mind.

DISPLAY AUDIO TOUCH SCREEN^{1,2}

This amazing touch panel gives you access to your audio system's controls, equalizer, USB Audio Interface and Bluetooth Hands Free Link, and can also be operated by the steering wheel-mounted controls (RVSi models).

ELECTRIC PARKING BRAKE (EPB)

Simply flip back the small lever next to the shifter to engage, reducing the effort it takes to apply the parking brake and freeing up space on the center console.

REAR USB PORTS²

Keep your passengers powered up for whatever comes next with dual 2.5-amp USB charging ports in the second row (RVSi models).

DUAL-ZONE AUTOMATIC CLIMATE CONTROL

With available Dual-Zone Automatic Climate Control, it's easy to keep everyone comfortable whenever you and your passengers are out and about.

EXCELLENCE IN EVERY DETAIL

The new CR-V delivers more comforts and conveniences than ever, from an available leather-trimmed interior to a panoramic roof (RVSi models). Because design that enhances is the Honda way.

CR-V RVSi model shown in Black Interior

CR-V RVSi model shown in Black Interior

POWER TAILGATE WITH PROGRAMMABLE HEIGHT

The Power Tailgate easily opens and closes with the push of a button, and with the tailgate height-adjustability feature, it's customizable for drivers of all sizes (RVSi models).

EASY FOLD-DOWN 60/40 SPLIT REAR SEAT

A rear seat that folds down in one motion means flatter, longer cargo space than ever before. Now you can carry more or make even bigger plans.

MORE ROOM FOR WHAT MATTERS

Generous cargo space becomes even roomier with a fold-flat second row. Whether you're running errands or roaming across the country, the CR-V has room to spare.*

*Honda reminds you to properly secure cargo items.

COMMUTE WITH CONFIDENCE

Safety is always a priority for Honda. That is why every CR-V comes equipped with standard safety features designed to keep you and your loved ones comfortable and protected at all times.

CR-V RVS1 model shown in Lunar Silver Metallic

BACK-UP SENSORS

Sensors on the rear bumper of the CR-V can detect vehicles approaching from either side when backing up. The driver is alerted by an audible chime and arrows in the rearview camera display.

HONDA LANEWATCH³

Signal right and a small camera displays live video on your display audio screen, revealing nearly four times more than the passenger-side mirror alone.

MULTI-ANGLE REARVIEW CAMERA⁴

Backing up doesn't have to be a guessing game. See more of what's behind you with the Multi-Angle Rearview Camera with dynamic guidelines.

ACE BODY STRUCTURE (ACE)

The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

¹ The Hands Free Link interface is only compatible with phones equipped with Bluetooth and hands-free capability. For information on phone makers and models compatible with this system, see your Honda dealer. ² The USB Audio Interface is used to connect directly to and control today's digital audio players and other USB devices that store music files in MP3, WMA or AAC formats. Some USB devices with security software and rights-protected digital files may not work. See your Honda dealer for further details. ³ Display accuracy will vary based on weather, size of object and speed, and the display may not show all relevant traffic. The display is not a substitute for your own direct visual assessment of traffic conditions before changing lanes. ⁴ Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. **Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat. Always use seat belts and appropriate child seats.** Specifications, features, illustrations and equipment shown are based upon the latest available information at the time of printing.
