

The new Amarok

Commercial
Vehicles

High safety across all terrains.

Unique off-road ABS system and Hill Descent and Hill Start Assist.

Perfect for off-road.

Permanent and on-demand 4MOTION all-wheel drive.

Optimised safety.

New Automatic Post-Collision Braking System, 17-inch disc brakes¹⁾ in the front and 16-inch disc brakes at rear.

Best load platform surface usage.

Widest load platform and easiest moving tailgate in its class.

Best towing capacity and payload.

Towing load of up to 3.5 t²⁾ and extra high payload.

The new Amarok.

100% pickup. 100% premium.

New exterior design.

New sports bar³⁾ or styling bar "Plus"⁴⁾, new front design and alloy wheels of up to 20-inch⁵⁾.

New interior design.

Reworked dash panel and only vehicle with new "ergoComfort" seats with 14-way adjustment⁶⁾.

Modern infotainment systems.

New radio and navigation systems with Car-Net mobile online services.

New V6 3.0 l TDI engines.

With a power output of up to 165 kW and torque of up to 550 Nm.

Unique drive combination.

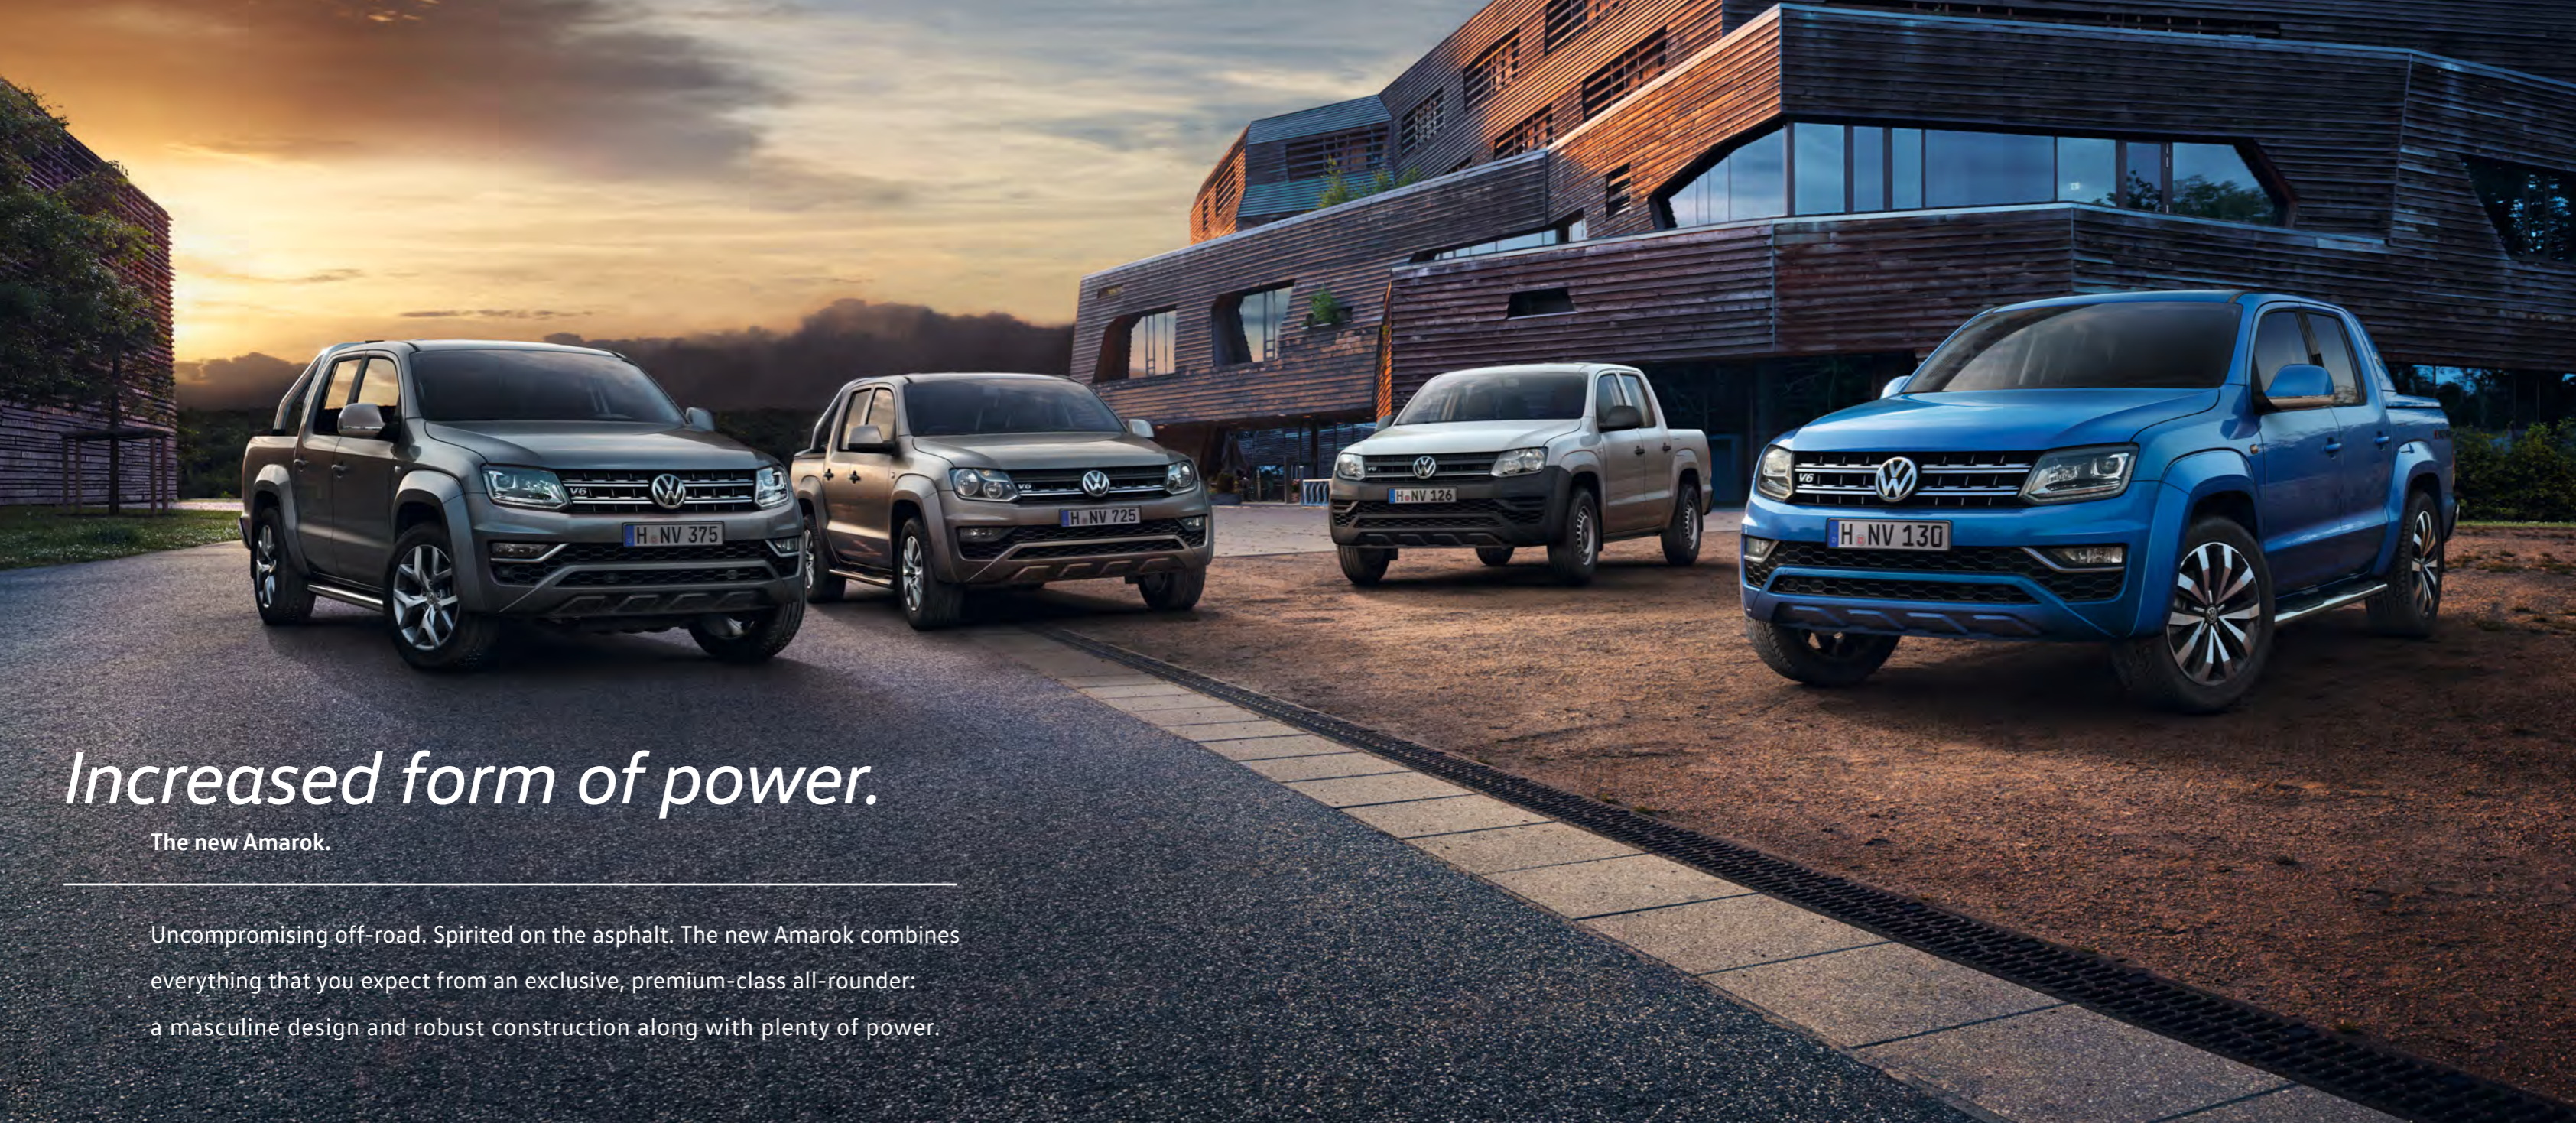

Permanent 4MOTION all-wheel drive with 8-speed automatic gearbox.

Highly economical.

BlueMotion technology including start/stop system.

1) Standard equipment from the Amarok Comfortline with 150 kW engine. 2) Amarok, 3.0 l TDI engine with 150 kW/165 kW, 4MOTION permanent all-wheel drive, 8-speed automatic transmission, 2+1 leaf springs and an unladen vehicle weight of up to 2,360 kg. 3) Only available for the Amarok Aventura and the Amarok Canyon. 4) Option without extra charge in the Amarok Aventura. Option at extra charge in the Amarok Comfortline and Amarok Highline. 5) As standard in the Amarok Aventura. 6) As standard in the Amarok Highline and the Amarok Aventura. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Increased form of power.

The new Amarok.

Uncompromising off-road. Spirited on the asphalt. The new Amarok combines everything that you expect from an exclusive, premium-class all-rounder: a masculine design and robust construction along with plenty of power.

More masculine.

New, sporty front design with double chrome trims and bi-xenon headlights, including LED daytime running lights.

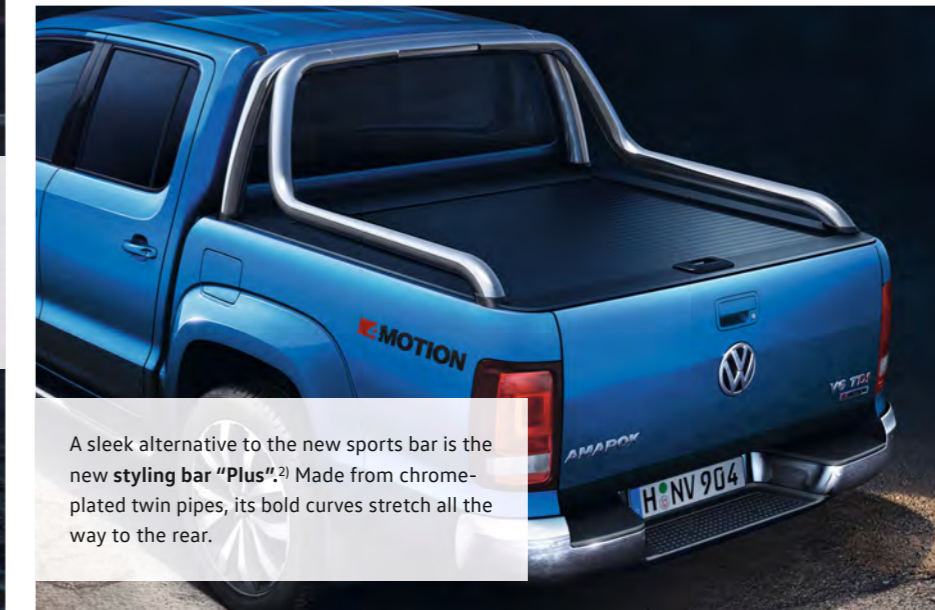

More dynamic.

Clear lines, new sports bar¹⁾ and 20-inch "Talca" alloy wheels.

A statement of quite unique nature: with its sports bar¹⁾ and chromed side bars with LED entry lighting, the Aventura premium model creates strong highlights. The honed edges increase the masculine effect, as do the tinted tail lights and the only 20-inch alloy wheels available for this vehicle class.

The new **sports bar**¹⁾ is colour-coded and emphasises the dynamic elegance of the new Amarok Aventura. The Aventura emblem, attached on both sides, further enhances the vehicle's value.

A sleek alternative to the new sports bar is the new **styling bar "Plus"**²⁾. Made from chrome-plated twin pipes, its bold curves stretch all the way to the rear.

1) Only available for the Amarok Aventura. 2) Option without extra charge in the Amarok Aventura. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

With the sportive leather-covered **multifunction steering wheel with paddles** you have the entire vehicle in your grasp – while the **3D “Premium Colour” multifunction display** helps you to keep an eye on everything. The new **power steering** also improves steering response and creates an extra dynamic driving experience.

- New radio and navigation systems
- Car-Net Guide & Inform
- Car-Net App-Connect

More exclusive.

New cockpit with premium equipment, new infotainment systems and Car-Net mobile online services.

The interior provides a convincing combination of space, high comfort and numerous extras. All of the equipment lines feature the new dash panel with the decorative trim and A4 format storage compartment. The Amarok Aventura also comes with a leather-covered multifunction steering wheel with new paddles as well as the “Discover Media” navigation system including mobile online services.

Always well-informed: After activating **Car-Net Guide & Inform** you can benefit from things like up-to-the-minute online traffic news, dynamic route adjustment and an intelligent function which finds the nearest petrol station.*

*More information can be found on page 60. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

More comfortable.

Most spacious feeling in its class and the only vehicle with ergoComfort seats with 14-way adjustment.

The new Amarok Aventura comes with top-of-the-range interior with quality to match. The seating position is higher than in a sports utility vehicle and at the same time as comfortable. Both of the ergoComfort seats in the front can be adjusted at the touch of a button to find your perfect position to the nearest millimetre, making sure you arrive feeling relaxed. The rear bench seat has space for three people and can be folded up if you need to transport larger items.

In the interior you will find a whole host of **storage options** – like the compartment in the dash panel, large compartments under the front seats and four cup holders.

Amplest legroom in its class.

Rear bench seat, that can be partially folded from 2/3 to 1/3.

In the new Amarok Aventura, the driver and front passenger will enjoy the journey on **ergoComfort seats**. As well as electrical 12-way adjustment, both leather seats come with manual 2-way adjustment and have been awarded the AGR seal of approval* for outstanding ergonomics.

*On 26 November 2015, the ergoComfort seat was awarded with the Campaign for Healthier Backs' seal of approval by the German Association of Back Training Facilities (BdR e.V.) and the Campaign for Healthier Backs (AGR e.V.). Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

More reliable.

Equipped with the new Automatic Post-Collision Braking System and electronic trailer stabilisation system as standard.

Safety on almost any terrain: The new Amarok is the only pick-up in its class to come with an Automatic Post-Collision Braking System, 17-inch disc brakes* at the front and 16-inch disc brakes in the rear as standard. What's more, the trailer stabilisation system provides the best possible protection against snaking trailers.

Electronic Stabilisation Programme

Off-road ABS

17-inch disc brakes* in the front, 16 inch-front disc brakes in the rear

New Automatic Post-Collision Braking System

Please refer to page 51 for more safety and driver assistance systems.

*Standard equipment from the Amarok Comfortline with 150 kW engine. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

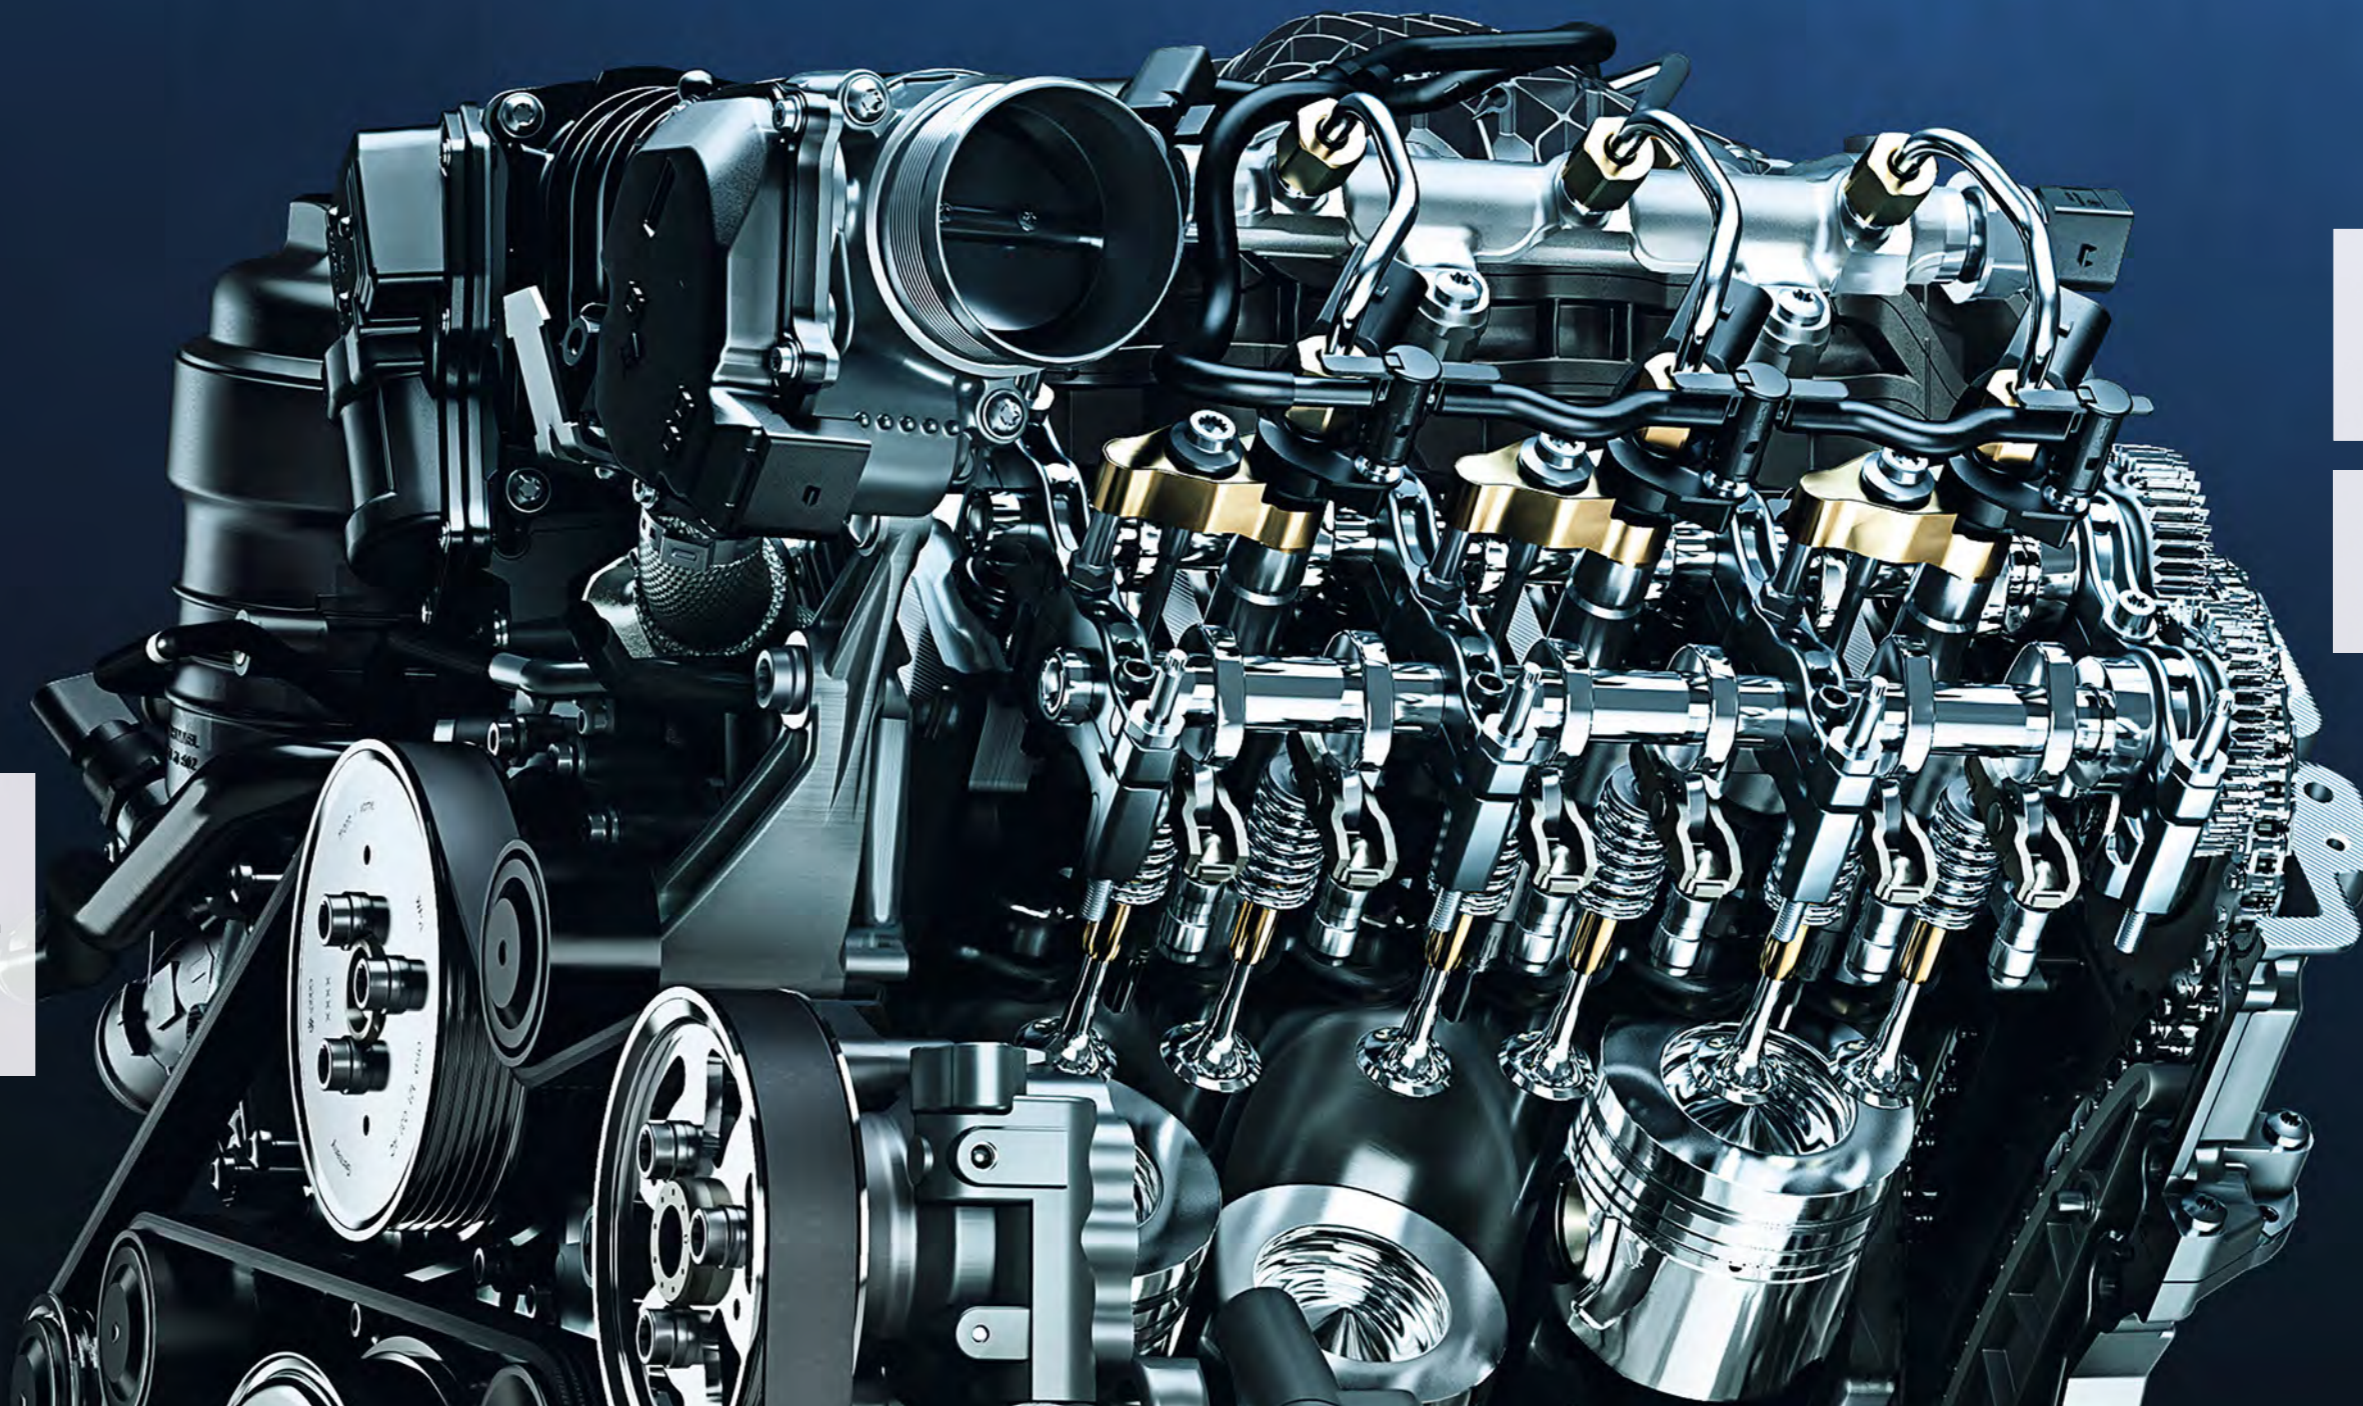

Stronger.

New V6 3.0 l TDI engine and the only pickup in its class with an 8-speed automatic gearbox.

Powerful like no other: the 165 kW six-cylinder turbodiesel engine with 3.0 l capacity has more than enough reserves even in the most demanding situations. Additional power comes from the overboost function, which briefly increases the performance of the V6 165 kW TDI engine by up to 180 kW depending on the driving situation.

Both V6 engines are available with the **8-speed automatic gearbox**. While the first gear has been specially optimised for pulling off when towing a trailer, the eighth gear reduces fuel consumption through low-speed driving on long journeys. Equally unique: **the option to combine the gearbox with the permanent 4MOTION all-wheel drive.**

V6

**3.0 l TDI (165 kW)
with 550 Nm and overboost
function of up to 180 kW**

Average fuel consumption: from 7.8 l/100 km
CO₂ emissions: from 203 g/km

**3.0 l TDI (150 kW)
with 500 Nm**

Average fuel consumption: from 7.5 l/100 km
CO₂ emissions: from 196 g/km

Every new Amarok is equipped with fuel-saving and emissions-reducing **BlueMotion Technology** including a start/stop system as standard.

More powerful.

4MOTION all-wheel drive, off-road ABS and Hill Descent Assist.

The new Amarok offers premium driving comfort, even under the toughest of conditions. This is due to the perfect harmony created between the running gear and drive calibration – combined with the proven and tested 4MOTION all-wheel drive which knows how to pack a punch when it needs to. The outstanding off-road ABS function also helps to reduce braking distances on loose terrain.

The new Amarok is the only pickup in its class to offer drivers the **option of combining the 4MOTION permanent all-wheel drive with an 8-speed automatic gearbox.** The automatic gear-change system boosts driving comfort considerably, particularly on challenging terrain or in mountainous regions.

Off-road performance.

The **Hill Start Assist** prevents the vehicle from rolling back on inclines and simplifies hill starts.

01 On-demand 4MOTION all-wheel drive

02 The only vehicle in its class to offer 4MOTION permanent all-wheel drive with an 8-speed automatic gearbox

01 On-demand 4MOTION all-wheel drive. A transfer case enables the front wheels to be electrically engaged and disengaged while driving. On steep inclines or longer stretches of gravel, an additional reduction gear can also be activated. The adjustable 4MOTION all-wheel drive is combined with the 6-speed manual gearbox.

02 Permanent 4MOTION all-wheel drive. This 4x4 drive system with a self-locking Torsen central differential is unique in the pickup segment and provides a balanced 40:60 distribution for all on-road and off-road tasks.¹⁾ This vehicle also comes into its own on the road by significantly increasing traction when cornering.

Mechanical differential lock (not illustrated). It is also available with an electronic differential lock as standard and provides ideal traction on sandy and slippery terrain. Following activation, both of the rear wheels are powered with even power and even speed.

03 Brakeover angle. Thanks to its increased ground clearance and depending on the loading condition, the new Amarok can even climb ramps with an angle from 15.6° up to 20.1°.²⁾ | TL | CL | HL | AV |

04 Gradients. The new Amarok handles 100% inclines with a payload of up to 1 t.²⁾ | TL | CL | HL | AV |

05 Slope angle and wading depth. The maximum slope angle for the new Amarok is 29.5° at the front and 18.0° at the rear. It can handle pools with a wading depth of 500 mm. | TL | CL | HL | AV |

06 Lateral gradient. The broad wheelbase of the new Amarok provides enormous stability even when driving along slopes with a 50° incline.^{2), 3)} | TL | CL | HL | AV |

Outstanding off-road ABS with Hill Start Assist

07 Off-road ABS. Once activated, the wheels lock when braking on loose surfaces with a larger interval, essentially creating a wedge which significantly reduces the braking distance. This noticeably increases the driving safety. | TL | CL | HL | AV |

07 Hill Descent Assist. This allows you to drive down slopes in a safe, controlled way, thanks to the engine management's ability to govern the engine speed, and apply the brakes when driving off-road if necessary. The vehicle's speed is maintained at a constant crawling pace. | TL | CL | HL | AV |

1) The distribution varies depending on the surface. 2) The values vary depending on the equipment and engine. 3) The incline on the left side is 49.7° and 50.8° on the right side. Please bear in mind that these figures result from static calculations. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

More robust.

**Sturdy ladder frame design and highest towing capacity
in its class with up to 3.5 t*.**

Exceptionally robust and with a premium finish, the new Amarok is built to impress, even in heavy use. A warp-resistant ladder frame, which guarantees excellent body stability, and special leaf springs allow for a maximum payload of up to 1.0 t and a trailer load of up to 3.5 t*.

The fixed **tow bar** with a ball head design is exceptionally durable and manufactured to tow a **trailer load of up to 3,500 kg*** (braked). This is available as an option.

The standard **2+1 leaf springs** offer high driving comfort and a maximum payload of 842 kg, while the optional **3+2 leaf springs** increase the payload to up to 985 kg.

*Amarok, 3.0 TDI engine with 150 kW/165 kW, 4MOTION permanent all-wheel drive, 8-speed automatic gearbox, 2+1 leaf springs and an unladen vehicle weight of up to 2,360 kg. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Larger.

The widest load platform in its class, allowing Euro pallets to be loaded crosswise.

No other pick-up provides so much space between the wheel housings. The loading width of 1,222 mm even enables Euro pallets to be loaded crosswise. The spacious, 2.52m² cargo box features some impressive dimensions – such as the 508 mm high side panels and the low loading sill height of 780 mm.

The widest load platform in its class.

01

02

03

04

05

06 | 07

01 Load platform. The load platform in the new Amarok is precisely 1,222 mm across between the wheelbase – this is unique in its vehicle class and allows Euro pallets to be loaded across the platform. If necessary, the tailgate with 200 kg payload can be used as an extension of the load platform. When filled to the brim, the cargo box offers space for 1.28 m³ of bulk goods on a surface of 2.52 m². | TL | CL | HL | AV |

02 Aluminium load platform cladding. The front panel, the load surface and the loading flap are protected by tailor-made corrugated aluminium panels while the side panels are protected by custom-fit plastic trays. | TL | CL | HL | AV |

03 Load compartment coating. The UV-resistant special coating in anthracite provides excellent protection against mechanical and chemical wear. | TL | CL | HL | AV |

Loading sill protection (not illustrated). It is made from robust, Anthracite plastic and is used on the dropsides. As a result, it protects the cargo box from scratches and dents. | TL | CL | HL | AV |

04 Rear window grille. The sturdy black grille is fitted to the load platform edge and protects the cabin against impact from the cargo. | TL | CL | HL | AV |

05 Load platform lighting. It lights up the load platform, allowing you to load your cargo in the dark. In addition, it also features the integrated third brake light. | TL | CL | HL | AV |

Load surface mat (not illustrated). The custom-fit, dark non-slip mat protects the load platform against dirt and scratches and also absorbs impacts and noise. | TL | CL | HL | AV |

Side storage box (not illustrated). Fitted on the left or right over the wheelhouse, the sealed 440 mm x 243 mm x 389 mm storage box has plenty of space for tools and other instruments. The storage box can be combined with the rail system. | TL | CL | HL | AV |

06 Rail system including fittings. It is available in two designs: either with two rail profiles on the load platform or with four rails, two with lashing rails on the load platform and two on the side dropsides. Both designs can be combined with the load compartment coating. | TL | CL | HL | AV |

07 12 V socket. A 12 V socket is fitted on the inside of the left-hand panel. | CL | HL | AV |

Lashing eyes (not illustrated). The cargo box is equipped with four robust lashing eyes. Two are located on the front and the other two are at the back, behind the wheel housing. | TL | CL | HL | AV |

The new Amarok Canyon

If you want to survive in the wild, you need a lot of power. That's why the new Amarok Canyon combines the powerful 150 kW V6 TDI engine with 4MOTION permanent all-wheel drive, an 8-speed automatic gearbox and off-road ABS. The new premium pickup makes a perfect impression thanks to its authentic off-road look, upon request also available with the exclusive Honey Orange metallic paint finish, black wheel arch extensions and a light bracket with main beam headlights.

Standard equipment in the new Amarok Canyon.

Exterior

- 17-inch "Aragua" alloy wheels
- Colour-coded wheel arch extensions¹⁾
- Sports bar, painted in matte black
- Side bars, door handles and B-pillars painted matt black
- Load compartment coating
- "Canyon" and "4MOTION" lettering²⁾
- Tinted tail lights

Interior

- "Mithy Tamo" cloth seat upholstery in Titanium Black/Brown with black side bolsters and orange stitching
- Seat belts with orange contours
- Leather gear selector and handbrake
- Stainless steel pedals
- Fabric floor mats with "Canyon" lettering

Function

- "Discover Media" navigation system with six loudspeakers
- Car-Net Guide & Inform and Car-Net App-Connect
- Leather-covered multifunction steering wheel with orange-coloured stitching
- "Premium Colour" multifunction display

Safety

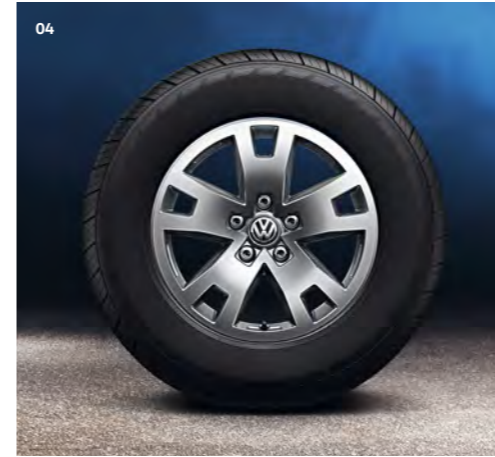

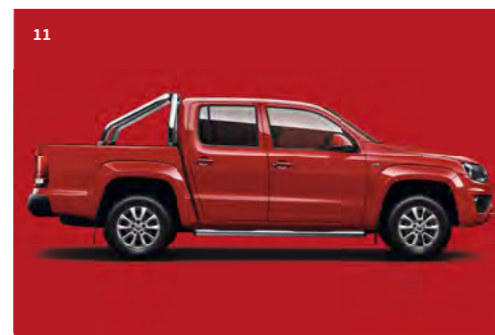

- Fog lights with chrome surround

The new Amarok Canyon is based on the new Amarok Comfortline. Please refer to pages 38–39 for more standard equipment features in the new Amarok Canyon.

¹⁾ Also available in black on request. ²⁾ Decorative film may show signs of wear and tear or ageing, in particular when subjected to direct solar radiation, after a period of 1 to 3 years or even within 1 year in very hot climates. If the decorative film remains on the vehicle for an extended period of time, visual differences may appear between the area protected by the film and the paint finish that is not covered by film. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Load platform covers.

01

Robust hard top with sliding windows

02

01 | 02 Hard top. This colour-coded hard top design comes with a tailgate with a large glass window and gas struts along with a front sliding window and side windows that can be locked from the inside. This lets plenty of daylight into the loading area, making it easier to load and unload. Thanks to the sealing package, your cargo is always protected against dust and rain. Furthermore, the hard top is equipped with green-tinted heat-insulating glass and rear window heating. | TL | CL | HL | AV |

03

03 Load compartment cover made of plastic. The lockable, colour-coded plastic cover protects the load compartment against dust and rain. It can be combined with a short styling bar upon request. | TL | CL | HL | AV |

04

04 Load compartment cover made of aluminium. The lockable cover made from corrugated aluminium protects the load compartment against dust and rain. It is easy to remove when needed. | TL | CL | HL | AV |

05

05 Rolling cover. The lockable load compartment cover protects the cargo against moisture, dust and prying eyes. | TL | CL | HL | AV |

Styling.

01 Bi-xenon headlights with LED daytime running lights. The bi-xenon headlights produce both high and low beams. This extends the field of vision to increase safety. The elegant LED lighting strip serves as the daytime running lights. | TL | CL | HL | AV |

02 Style package in chrome I.¹⁾ A bold styling bar²⁾ made from chrome-plated stainless steel twin pipes, load compartment lighting built into the third brake light and two flat aluminium steps add a premium touch to the new Amarok. | TL | CL | HL |

Style package in chrome II (not illustrated).¹⁾ The same as the chrome I style package but with two elegant stainless steel side bars in a high-gloss chrome design, available with LED lighting upon request. | TL | CL | HL |

Style package "Plus" in chrome II (not illustrated).¹⁾ The package includes a chrome-plated styling bar²⁾ "Plus" with pipes that run to the tailgate, built-in load compartment lighting plus two elegant stainless steel side bars in a high-gloss chrome design, with LED lighting upon request. | TL | CL | HL |

Style package in chrome III (not illustrated).¹⁾ The same as the chrome I style package but with two high-gloss and chrome-plated stainless steel side bars, available with LED lighting upon request, including non-slip black steps. | TL | CL | HL |

Style package "Plus" in chrome III (not illustrated).¹⁾ The package includes a chrome-plated styling bar²⁾ "Plus" with pipes that run to the tailgate, built-in load compartment lighting plus two high-gloss, chrome-plated stainless steel side bars, with LED lighting upon request, with non-slip black steps. | TL | CL | HL |

03 Style package "Plus" in Black, high-gloss finish.¹⁾ The package includes a black gloss styling bar²⁾ "Plus" with pipes that run to the tailgate, built-in load compartment lighting plus two black gloss stainless steel side bars, with LED lighting upon request. | TL | CL | HL |

Style package in Black matte (not illustrated).¹⁾ This package makes the new Amarok that little bit more masculine. The steel styling bar²⁾ has a diameter of 76 mm and comes with a black powder coating. Black side bars, available with LED lighting, with non-slip steps and load compartment lighting built into the third brake light top off the striking appearance. | TL | CL | HL |

Privacy glass (not illustrated). Tinted side and rear windows are available for the rear seats in the double cab. They screen the interior from view and provide excellent protection from solar radiation. Privacy glass is also available as an option for the hard top for the Amarok Highline and Amarok Aventura. | TL | CL | HL | AV |

Solar protection film, black (not illustrated). They allow only 37% of solar radiation into the interior. When combined with privacy glass the windows present an almost opaque black appearance. | TL | CL | HL | AV |

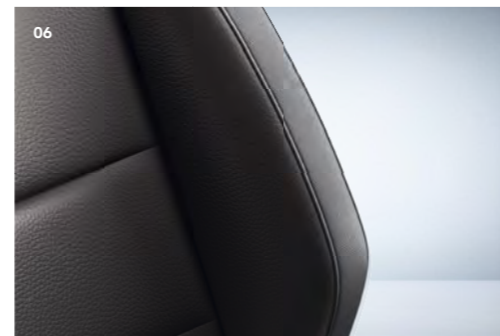

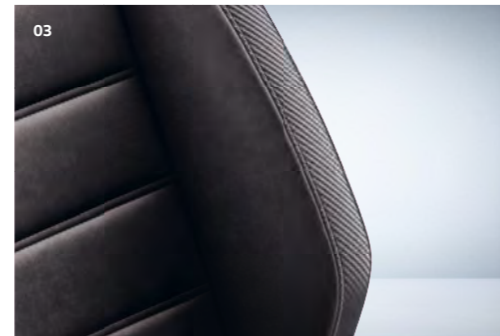

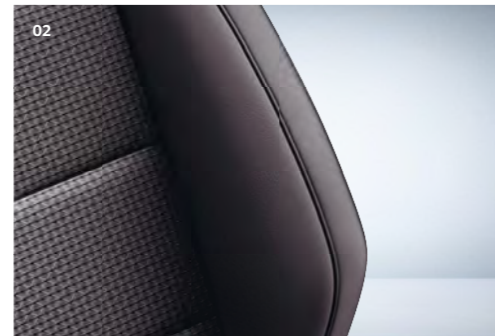

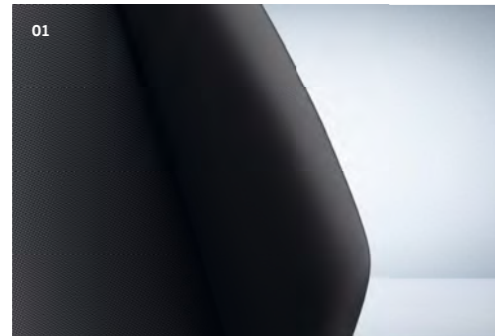

04 Electrically folding door mirrors. The electric folding side mirrors provide additional comfort. A rotating control enables you to reduce the vehicle width by around 17 cm. | TL | CL | HL | AV |

05 Chrome rear bumper. The part-chromed steel bumper adds a more premium appearance to the new Amarok. The integrated step can handle even heavy loads. This makes it easier to load and unload the load compartment. | HL | AV |

Black rear bumper (not illustrated). The black painted steel bumper is painted black and exceptionally robust and durable. The integrated step can handle even heavy loads. | TL | CL |

Seat upholstery.

- 01 "Austin" cloth seat upholstery¹⁾ in Titanium Black | TL |
- 02 "Kemisu" cloth seat upholstery in Palladium | CL |
- 03 "Alcantara" seat upholstery in Titanium Black | CL |
- 04 Anthracite leatherette seat upholstery¹⁾ | TL |
- 05 "Nappa"²⁾ leather seat upholstery in Black with stitching in Ceramique | AV |
- 06 "Vienna"³⁾ leather seat upholstery in Palladium | CL | HL |

Standard equipment Optional extra | TL | Trendline | CL | Comfortline | HL | Highline | AV | Aventura

Interior and comfort.

01 "Premium Colour" multifunction display. It comes with a high-resolution 3D colour display and animated menu guidance. | AV |

"Plus" multifunction display (not illustrated). It displays up-to-date information, such as remaining range, outside temperature and average consumption. | TL | CL | HL |

02 Leather-covered multifunction steering wheel with paddles. It gives you a good grip and is extremely user-friendly. The radio or navigation system and your mobile phone can be controlled using the buttons. Ergonomic paddles allow you to change gears for a sportier driving style. | CL | HL | AV |

Winter package (not illustrated). Making the start of the day that extra bit nicer in the colder months. The package includes heated windscreen washer nozzles, a washer fluid display and seat heating for the driver and front passenger seat. | TL | CL | HL | AV |

12 V sockets (not illustrated). Up to three 12 V sockets are available inside the vehicle: one in the dash panel, one in the central console and one in the second row of seats⁴⁾. | CL | HL | AV |

03 "Climatronic" air conditioning. This system offers 2-zone temperature control for the driver and front passenger, manual air recirculation and an air quality sensor. Depending on the intensity of the sun's rays and the outside temperature, the air conditioning adds more or less cool air accordingly. | TL | CL | HL | AV |

"Climatic" air conditioning (not illustrated). This semi-automatic air conditioning system has an interior sensor, and constantly compares the interior temperature with the desired temperature in the vehicle. | TL | CL |

Auxiliary water heater (not illustrated). It enables you to pre-heat the engine while also heating up the interior quicker or pre-heating it before you get in. The control unit is built into the roof console. Of course, you can also activate and deactivate the auxiliary water heater using the handy remote control. | TL | CL | HL | AV |

1) Will be introduced at a later date. 2) Centre seat panel and inner seat bolsters in "Nappa" leather. 3) Centre seat panel and inner seat bolsters in "Vienna" leather. The "Vienna" upholstery is a leather seat upholstery with leatherette sections. 4) Option at extra charge in the Amarok Comfortline. The illustrations on these pages can only be regarded as a general guide as the printing process cannot render the colours with absolute accuracy. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Infotainment.

01 Voice control. Operate the telephone, navigation and audio functions without taking your hands off the steering wheel. And call up virtually all of the menus and notifications on the radio or navigation system display using voice commands. | CL | HL | AV |

“Composition Audio” radio system (not illustrated). The system is made up of a monochrome TFT display, 2 x 20 watt power with four loudspeakers, an SD card slot, an AUX-IN interface and an iPhone-compatible USB port plus a Bluetooth connection for mobile phones. | TL | CL |

02 “Composition Media” radio system. In addition to the “Composition Audio” features, it consists of a 16.5 cm (6.33-inch) TFT colour display, a touchscreen with proximity sensors, voice control, an MP3, AAC and WMA-compatible CD drive, 4 x 20 watt with six loudspeakers, a dual tuner with PhaseDiversity and electronic voice amplification. Car-Net App-Connect guarantees the best possible connection.²⁾ | TL | CL | HL |

03 Car-Net App-Connect.²⁾ With this software, selected apps from your smartphone can be used while driving. Car-Net App-Connect supports MirrorLink™, Apple CarPlay™ and Android Auto™. | TL | CL | HL | AV |

04 “Discover Media” navigation system. In addition to the “Composition Media” features, it also includes DAB+ digital radio, a second SD card slot and an SD card with map data for Europe. Volkswagen MapCare provides access to free updates for the installed maps. Furthermore, Car-Net Guide & Inform can be activated in just a few steps and used free-of-charge for three years.³⁾ | TL | CL | HL | AV |

05 Car-Net Guide & Inform.³⁾ As a consistent extension of the vehicle's navigation system, Car-Net Guide & Inform retrieves the latest information from the Internet. If, for instance, a traffic jam is building, your route will be changed in response to this. You can also choose to display the cheapest petrol station nearby and much more. | TL | CL | HL | AV |

DAB+ (not illustrated). Receive digital radio programmes in top-class quality through the car's aerial. The “Composition Media” radio system can be ordered with DAB+ upon request. | TL | CL | HL | AV |

1) The electronic voice amplification is included in the “Composition Media” radio system and “Discover Media” navigation system. 2) Option at extra charge in conjunction with the “Composition Media” radio system and for the “Discover Media” navigation system. Compatible with MirrorLink™, Apple CarPlay™ and Android Auto™. Please ensure that your end device is compatible with Car-Net App-Connect. Car-Net App-Connect apps are operated exclusively through your mobile phone. Please note the conditions of your contract with regard to the data and Internet connection. Further

Driver assistance systems.

01 ParkPilot.⁴⁾ Emits audible warnings when obstacles are detected in front of or behind the vehicle when parking, and also provides a visual display⁵⁾ of the vehicle's distance from the obstacles. | TL | CL | HL | AV |

02 “Rear View” reversing camera. Simplifies parking by showing a limited view of the area behind the vehicle on the display of the radio or navigation system⁵⁾. Static guidelines facilitate the parking process. | TL | CL | HL | AV |

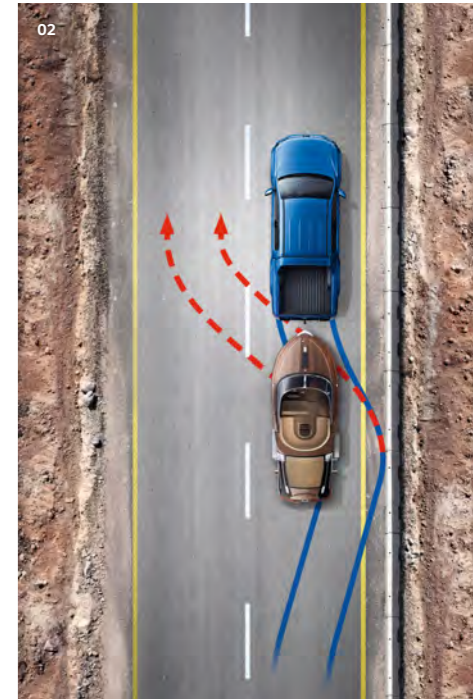

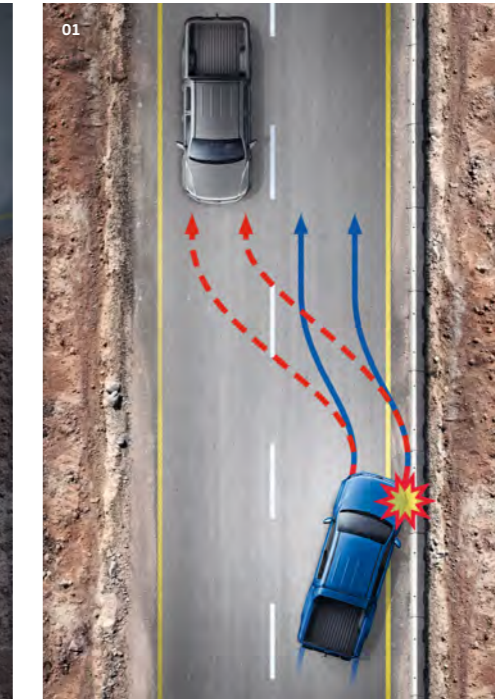

03 Tyre pressure monitoring system (not illustrated).⁴⁾ Measures the tyre pressure on each wheel on an ongoing basis and displays it on the multifunction display. The driver is warned if the pressure starts to drop. | TL | CL | HL | AV |

03 Fog lights with integrated static turning light. Ensures optimal visibility in poor weather conditions. The headlight nearest to the corner illuminates the roadside when turning. | TL | CL | HL | AV |

Light and Sight package (not illustrated). The windscreen wipers are activated if it starts raining and the wiping interval is adapted to the amount of rain. Furthermore, the interior mirror is automatically tinted if the headlights in the vehicle behind are too bright. Also included in the package: automatic driving light control when darkness starts to fall, “coming home/leaving home” function. | TL | CL | HL | AV |

information is available at www.volkswagen-commercial-vehicles-carnet.com 3) Only available in conjunction with the “Discover Media” navigation system. From the fourth year, usage carries an extra charge. In order to establish an Internet connection, the customer will require their own mobile wireless router (e.g. a smartphone with Hotspot capability) or a suitable USB dongle (e.g. Volkswagen CarStick) that works with their own SIM card with an internet data tariff. 4) Within the system thresholds. 5) Depending on the version of the radio or navigation system. Starting from “Composition Media” radio system. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Safety systems.

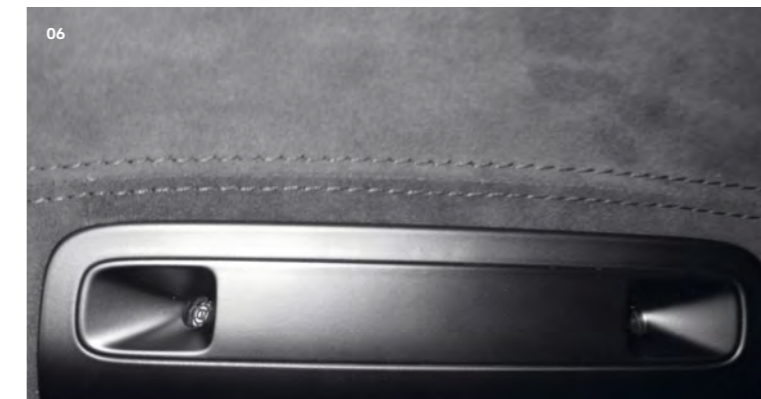

01 New Automatic Post-Collision Braking System.⁴⁾ Triggers braking after a collision, with the aim of preventing secondary collisions. After a short delay, the vehicle begins a phased braking action down to 10 km/h, during which the driver can take over at any time. | TL | CL | HL | AV |

Electronic stabilisation programme (not illustrated). Prevents under- or over-steering via targeted braking of individual wheels. | TL | CL | HL | AV |

02 Trailer stabilisation.⁴⁾ Should the trailer start to fluchtuate heavily, the system slows it down by means of controlled braking and reduced engine torque. This steadies the trailer and increases driving safety. | TL | CL | HL | AV |

Anti-theft warning system (not illustrated). Triggers acoustic and visual warnings at signs of unauthorised entry. As well as interior monitoring, the system includes an electronic immobilizer, a deactivatable safelock and a tow-away warning. | TL | CL | HL | AV |

Optional equipment.

Upon request you can also adapt the Amarok to your own personal needs.

The special equipment shown here can be ordered from your Commercial Vehicles dealership. Our customer support team for special vehicles will be happy to answer any questions.¹⁾

01 Snorkel.²⁾ Made out of either polyethylene or a light-weight carbon fibre, the snorkel is secured along the A-pillar and prevents any dust or water from getting into the engine while you are driving off-road. However, the specified wading depth must always be observed. Volkswagen Commercial Vehicles recommends fitting the snorkel if you often drive on dusty roads as its combustion air intake is fitted higher up the vehicle. | TL | CL | HL | AV |

02 Support with tarpaulin and hoop.²⁾ The galvanised rectangular steel pipes are secured to the side dropsides and rear wall of the cab. The hoop is used to tension the high-quality tarpaulin, which can be opened on three sides. | TL | CL | HL | AV |

03 "Commerce" hard top.²⁾ This colour-coded support transforms the 2.52 m² loading platform into a versatile loading compartment with panelled side walls. This turns the pickup into a powerful box van. The top tailgate is equipped with a glass insert and is easy to open and close thanks to the gas struts. The sealing package protects your cargo from dust and moisture. | TL | CL | HL | AV |

04 Partition net for the rail system.²⁾ The net is made of 1,320 mm x 625 mm tear-proof, black plastic-fibre bands and is exceptionally durable and versatile. It can be secured to the rail system fittings quickly and easily, securing any bulky items in place. The partition net can also be used to separate the load compartment or as a net bag for items weighting up to a maximum of 10 kg. | TL | CL | HL | AV |

05 "Service" hard top.²⁾ This functional, colour-coded support is adapted especially to the needs of special industries, particularly plumbers and repair specialists, and transforms the Amarok into a workshop on wheels. The panelled side flaps and top tailgate with a glass window are easy to open and close thanks to the gas struts, providing easy access to the cargo box. | TL | CL | HL | AV |

06 Alcantara leatherette trim for the pillars and headlining.²⁾ For a more exclusive appearance, you can have the entire headlining and the A, B and C-pillars in the driver's cab upholstered in Alcantara leatherette. | TL | CL | HL | AV |

07 Special lighting system.²⁾ The blue lighting strip is made of robust polycarbonate and is equipped with high-performance LEDs (RTK 7). The system is also equipped with a control panel eAZD. | TL | CL | HL | AV |

08 "Desert" engine underdrive guard.²⁾ This sealed underdrive guard is made of 5 mm thick aluminium with reinforcing ribs and is designed to function as a skid. It protects the engine, front axle differential housing and pivot points for the lower transverse control arm. Its design is designed especially to meet the needs of forestry and agriculture. | TL | CL | HL | AV |

Special bodies and conversions.

Volkswagen Commercial Vehicles has been working with professional body builders for the past few years to make sure the new Amarok perfectly meets your needs. This page features just a few examples of our work.

01 Amarok ladder transport vehicle with wheelbase extension. Extended by 310 mm or 650 mm, the longer vehicle comes with a significantly larger cargo box, a load surface coating and a ladder and material transport system. Long, powder-coated pipes in matte Black make it easier to get in and out of the vehicle and secure ladders to the transport bracket.

02 Amarok veterinary vehicle. Outstanding off-road features and a special hard top with a pop-up roof make the new Amarok the perfect vehicle for vets. The demands of their job are made easier by a number of drawers, a sturdy worktop, shelves, a refrigeration unit and a step on the tailgate.

03 Amarok fire-fighting vehicle. Our partners offer fire brigades and emergency services with an array of special bodies and conversions. For instance, the Amarok can be used as a rapid advance response vehicle with outstanding off-road features and a large load platform or an advance fire response vehicle with a high-pressure water system, both of which come with a special lighting system and digital radio technology.

04 Amarok construction site vehicle. Building constructors, workmen and architects find everything they need in this pickup: instead of a front passenger seat, the double cab is fitted with a mounting plate, a drawer which pulls out from the side of the door, a large storage compartment with rollers, a lockable laptop compartment with a retractable worktop and three 230-V sockets. The rear and side panels of the hard top can be unlocked with a remote control. As well as a tripod and tool shelf, the load compartment is equipped with a ladder compartment to hold a WAKÜ 101, a toolflex bracket for dipsticks, and an equipment cabinet with two drawers, a compartment for measuring equipment and an off-set heavy-duty surface.

05 Amarok water rescue vehicle. The vehicle is specially tailored to the needs of water rescue services. In addition to a tow hitch for boat trailers, the new Amarok also comes with 4MOTION permanent all-wheel drive, all-terrain tyres, a special lighting system and flashing LED in the front. A transport system for rescue equipment and a drawer system is also installed in the load compartment.

You will find detailed examples of all special bodies and conversions at: www.umbauportal.de

UmbauPortal

Volkswagen Accessories.

The new Amarok is a multifunctional, comfortable premium pickup equipped with everything you wish for. If you would like to have a few extras, Volkswagen Accessories offers interesting additional equipment options, which have been developed in cooperation with our Development and Design department. The extras represent high quality, and are only available at your Volkswagen Dealer.

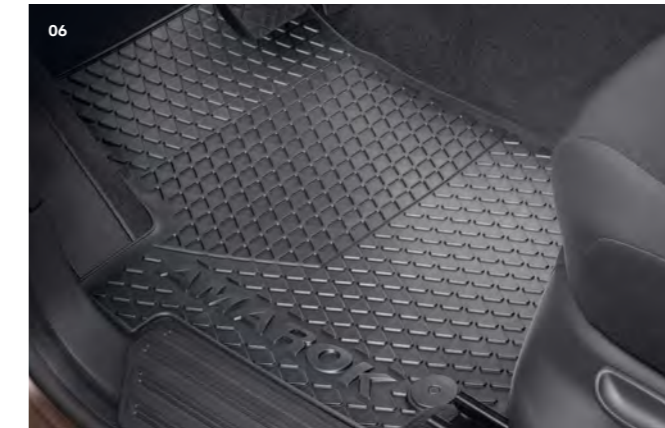

01 "Aspen" alloy wheel. 6 ½ J x 16. These alloy wheels are also compatible with snow chains. | TL | CL | HL | AV |

02 "Argonit Black Edition" alloy wheel. 8 J x 19 in Black or Brilliant Silver. | TL | CL | HL | AV |

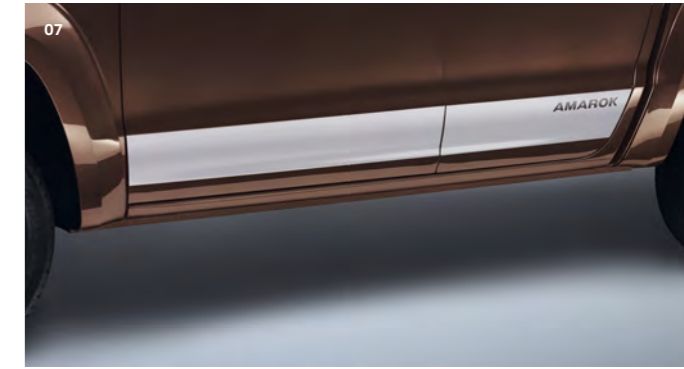

03 Side bars. The gloss-finish stainless steel bars can hold up to 200 kg and have a diameter of 76 mm; they can be secured to the standard attachment points without any additional drilling. | TL | CL | HL | AV |

04 Textile foot mats. The satin black foot mats designed to perfectly fit the floor dimensions are made from robust, tight-weave velours. The front mats also feature silver "Amarok" lettering. They are secured to the special mounting points in the footwell to prevent slipping. To make sure they sit well, the rear mats have a non-slip coating on the back. | TL | CL | HL | AV |

05 Side bars with steps. These bars also feature a high-gloss stainless steel pipe, lending the vehicle a sportier, more dynamic feel. They are fitted with sturdy steps and can hold up to 200 kg. These side bars are also available in Black upon request. | TL | CL | HL | AV |

06 All-weather floor mats. They are made from a robust, black rubber and feature embossed "Amarok" lettering. The special structure on the surface collects dirt and moisture. The custom-fit all-weather floor mats can be removed and cleaned if necessary. They can then be secured back to the floor in a just a few steps. | TL | CL | HL | AV |

07 Decorative film with "Amarok" batches. The four high-quality, silver-coloured design films* with punched out logo emphasise the stylish side of the Amarok. They are attached in the lower areas of the doors. The batches are also available in Black. | TL | CL | HL | AV |

08 Cooling and thermot box. The 25 l box can be used to transport 2-l bottles standing upright and for cooling them in summer. Alternatively, you can keep your snacks warm in there. The box is connected to A++ energy-efficient 12-V socket. The box comes with replaceable insulating lid and battery discharge protection. | TL | CL | HL | AV |

*Decorative film may show signs of wear and tear or ageing, in particular when subjected to direct sunlight, after a period of 1 to 3 years or even within 1 year in very hot climates. If the decorative film remains on the vehicle for an extended period of time, visual differences may appear between the area protected by the film and the paint finish that is not covered by film. Volkswagen Accessories are offered by Volkswagen Zubehör GmbH, An der Trift 67, 63303 Dreieich, <https://shops.volkswagen.com>, and are available only at your Volkswagen Commercial Vehicles dealer. You can find additional accessories in our full catalogue which is available from your Volkswagen Dealer. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

01 "Underrail" load compartment liner. The tray is made from weather-resistant plastic and is just as robust as the Amarok itself. It can be secured directly to the edges of the dropsides and designed specifically to fit the shape of the cargo box. It effectively protects the load surface and tail gate from all signs of use and any moisture. And of course it doesn't take up any of the load volume. | TL | CL | HL |

02 Tool box. It offers plenty of space for your tools or other important equipment that you need on the road. Providing optimum protection against weather, the lockable tool box is installed between the wheel housing across the entire width of the load compartment. Two gas struts make it easier to load and unload the box. | TL | CL | HL | AV |

03 Tarpaulin and attachments. With just a few simple steps the tarpaulin is secured to the cargo box's quick-release brackets, protecting your cargo against inclement weather and from fall out during the journey. The storage box cannot be combined with the styling bar. | TL | CL | HL | AV |

04 Basic carrier. It is mounted on the optional rail system and provides an additional transport option for the load platform. Various attachments are available for the carrier, such as a ski and snowboard bracket. | TL | CL | HL | AV |

05 Steel underide guard. Robust steel panels protect the fuel tank against stones and branches on the ground. | TL | CL | HL | AV |

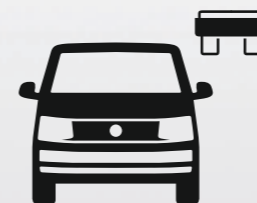

Volkswagen Commercial Vehicles ConnectedVan. Simple. Quick. Affordable. The new mobile fleet park management.

ConnectedVan is a mobile online service created by Volkswagen Commercial Vehicles which enables you to quickly and efficiently manage your fleet. And it only takes three simple steps: You connect the DataPlug¹⁾ to vehicles from Volkswagen Commercial Vehicles²⁾, download the free app and register in the ConnectedVan web portal. Thanks to the direct data transfer function and intuitive handling, you can save time when managing various information for your vehicles. Another advantage: you only pay for the DataPlugs. The app and services from ConnectedVan are free of charge for you.³⁾ Equip the solution now and use the benefits of ConnectedVan for your fleet. The DataPlug enables you to retrofit many Volkswagen Commercial Vehicle models from the year 2008 onward.²⁾ Further information about the mobile fleet management solution is available at your Volkswagen Commercial Vehicles Dealer or at www.volkswagen-commercial-vehicles-connectedvan.com

1. Volkswagen DataPlug reads the vehicle data.

The DataPlug is easy to connect. The adapter reads out the vehicle data and sends it via Bluetooth to the driver's ConnectedVan app. The DataPlug is now available from your Volkswagen Commercial Vehicles Dealer.

Connect DataPlug

2. Smartphone app for drivers/employees.

The free-of-charge ConnectedVan app offers your employees a number of services, including a digital journey log and refuelling records. A number of vehicle warnings and error messages are also displayed.

Transfer data via the app

3. Web portal for vehicle managers.

With the ConnectedVan portal you have access to all of the most important information concerning your fleet no matter where you are. Display the next scheduled service jobs⁵⁾ and find out where your vehicles are any time you want. Compare fuel consumption levels across the entire fleet or monitor your vehicle statuses.

Manage vehicle data in the web portal

The free basic services from ConnectedVan at a glance.³⁾

Excerpt from the services portfolio:

Driver management

- Employee overview
- Contact data, assigned vehicle, documents

Vehicle management

- Vehicle status notification
- Current vehicle information
- Individual reminder function

Dealer management

- Dealer overview and information
- Favourite dealerships for each vehicle

Driving licence reminder

- Digitisation of the driving licence
- Reminder function

Driver and vehicle assessment

- Average fuel consumption and comparison between drivers and vehicles⁶⁾
- Driver performance comparison

Digital journey log

- Vehicle and driver bound
- Automatic journey records

Digital refuelling log

- Records containing information on refuelling
- Information on fuel consumption

Warning messages

- Vehicle-specific display of warning messages including description⁷⁾

GPS tracking

- Clear location determination for all registered fleet vehicles
- Graphical display of the journey progress

Data export

- Export and process journey logs, fuel stops, warning messages and vehicle status information

Service

- Quick and direct contact to the service partner
- Maintenance appointment notifications⁵⁾
- Support in arranging service appointments

Can be retrofitted for most Volkswagen Commercial Vehicles models as of 2008.²⁾

Further information is available at www.volkswagen-commercial-vehicles-connectedvan.com

1) The DataPlug can be obtained from your Volkswagen Commercial Vehicles partner. 2) Depending on the equipment, it can be retrofitted in the majority of models from Volkswagen Commercial Vehicles (Crafter, Transporter, Caddy and Amarok) built from 2008 onward. 3) Market introduction campaign until 30.06.2017. The services remain permanently free of charge for customers who use ConnectedVan up until the aforementioned date. Please note the conditions of your mobile phone contract with regard to the data and Internet connection. 4) Free hotline. Service hours: Mon.-Fri. 07:00 am-7:00 pm.

5) Appointments must be organised with your Volkswagen Commercial Vehicles dealership. A recommendation is provided in the web portal. 6) The system calculates fuel consumption on the basis of the fuel stops recorded. 7) Please observe the warning messages in the vehicle and the descriptions in the vehicle manual as a primary source of information. Warning message displays depend on the vehicle model and equipment level. We reserve the right to make changes. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

We look forward to advising you: at 0800 - 72 45 059⁴⁾

The mobile online services.

Car-Net App-Connect.¹⁾

Experience more infotainment when on the road. Use Car-Net App-Connect to integrate your smartphone via a USB port in your vehicle. Car-Net App-Connect mirrors compatible apps from your smartphone on to the touch screen display of your optional radio or optional navigation system. Using Android Auto™, Apple CarPlay™ or MirrorLink™, you can comfortably control certain apps via the touchscreen display while driving.

You can use the following Volkswagen apps via MirrorLink™ while driving: Drive & Track, Shared Audio, Call & Remind and My Guide. More information is available at www.volkswagen-commercial-vehicles-carnet.com.

Volkswagen CarStick.

The CarStick conveniently connects the vehicle with the Internet. It uses a data SIM card (not included in the scope of delivery) to establish a UMTS connection. This allows you to utilise the Car-Net Guide & Inform services independently of your smartphone's hotspot and also create a hotspot in your vehicle for other mobile devices.

Car-Net Guide & Inform.²⁾

You can activate the online-based Car-Net Guide & Inform services if your vehicle is equipped with an optional navigation system. Guide & Inform is available free of charge for the first three years. You can use two kinds of services: services that support you directly in the vehicle and services you configure from home - either via the customer portal or else via the Car-Net app. To use Guide & Inform, you will need Internet access in your vehicle. You can either create a mobile hotspot using your smartphone or use the optional Volkswagen CarStick.

Well informed in your vehicle.

Guide & Inform keeps the driver up to date: with online-based traffic information, fuel station prices, free parking spaces nearby and a Google POI search in the navigation system.

Online Traffic Information.

Fuel Info.

Parking Info.³⁾

Online POI search.

News.

Weather.

Well organised from home.

Using the customer portal, you can set up online routes, destinations and POIs and then import them into the navigation system. The Car-Net app also synchronises calendar entries and driving destinations.

Online Route Import.

Destination Import.

Personal POI.

Vehicle Health Report.

Time manager.

Registration – A few simple steps:

- 1 Create your personal account at www.volkswagen-car-net.com/portal.
- 2 Enter your vehicle identification number (FIN).
- 3 You receive an 8 digit registration code.
- 4 Use your smartphone to create a mobile hotspot or use the Volkswagen CarStick to connect your vehicle to the Internet.
- 5 Enter the registration code into the navigation system.

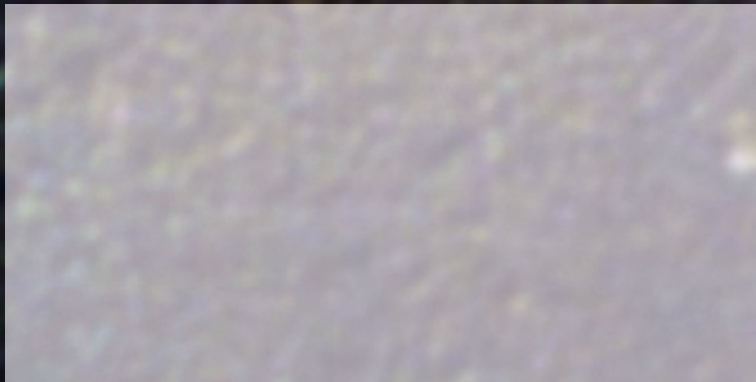

¹⁾ Car-Net App-Connect is only available in conjunction with the "Composition Media" radio system or the "Discover Media" and "Discover Media Plus" navigation systems. Car-Net App-Connect comprises MirrorLink™, CarPlay™ and Android Auto™. The availability of these technologies may vary depending on the country in question. Please note that Car-Net App-Connect is currently not supported by every mobile telephone on the market. Volkswagen is working closely with major smartphone producers to promote broader compatibility for Car-Net App-Connect. ²⁾ The use of Car-Net Guide & Inform is only possible with the "Discover Media" and "Discover Media Plus" optional extras. You will also require a mobile device (e.g. smartphone) that is capable of acting as a mobile wireless hotspot or a Volkswagen UMTS CarStick with a SIM card from any desired mobile network provider, which must be paid for. The Guide & Inform services are only available with an existing mobile network contract or one to be concluded separately for this purpose between you and your mobile phone network provider, and only within the respective mobile phone network coverage. Depending on your mobile phone tariff, receiving data from the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). Due to the amount of data needed when using Car-Net services, we strongly recommend signing up to data flat rate with your mobile phone provider. Use of Car-Net is governed in a separate agreement concluded online with Volkswagen AG. After taking possession of the vehicle, the customer has 90 days in which to register the vehicle at www.volkswagen-car-net.com/portal. The availability of Car-Net services may vary depending on the country in question. These services are available for the duration of the contract term agreed, and may be subject to changes in terms of content during the contract period. More detailed information on Car-Net is available at www.volkswagen-commercial-vehicles-carnet.com and from your Volkswagen Partner; contact your mobile network provider for information on your mobile network tariff conditions. ³⁾ Available for parking spaces with suitable technical infrastructure. There is currently no information available regarding entry heights for the car parks in question. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.
