# UNDENIABLE PRESENCE

The D-MAX is a force to be reckoned with, boasting its 'spirit of truck' DNA from the get-go. Its commanding design, wide stance, and angular body are impossible to ignore. This ground-up design exudes an aggressive masculinity that demands attention, starting with its stylish 18" alloy wheels with 12 elegantly thin spokes that evoke a spinning motion even when perfectly still.

But the D-MAX doesn't just look good; it's also practical. It leads the way with a redesigned front bumper with a new Air Curtain, and a rear tailgate with an enlarged upper spoiler. These aren't just stylish additions; they represent optimized aerodynamic design.

Beyond appearances, the D-MAX is designed for every driver's needs. With a variety of cabin types and trim levels available, there's a D-MAX for everyone. Its aggressive alloy wheels, seamlessly integrated rear step bumper, and handy side steps add to its appeal, while the new Bi-LED headlamps and sleek daytime running lights illuminate your way forward and maximize visibility day or night.

Even those who follow you will be entranced by the new LED Rear Combination Lamp's intriguing three-stage design motif that suggest spreading wings and a sense of width when viewed from behind -- leaving everyone else on the road with a lasting final impression.

[A] **Bi-LED headlamps with integrated daytime running lights:** Illuminate further and wider for maximum visibility.

[B] **18" alloy wheels:** Stylishly designed with a hole in each spoke that visually suggests a thinness and lightness that creates a special rotating shape that suggests a lively forward spin.

[C] **Tail lamps:** rear combination lamps with double LED lights provide improved visibility and safety.

[D] **Air Curtain:** Aerodynamic integration of wheels and lower body design creates optimal air flow to reduce drag, vibration, and noise.

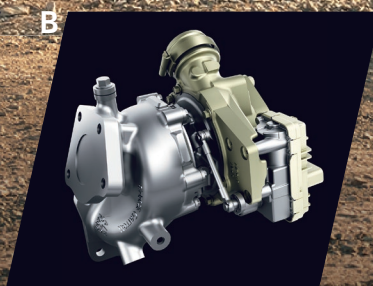

# RELENTLESS POWER

The D-MAX is a testament to ISUZU's unrivaled expertise in diesel engineering with over 27 million engines built worldwide. Its legendary engine, both robust and refined, is designed for performance. The amplified turbocharger response, precise fuel injection control, and minimal engine noise make it a formidable force on the road.

This vehicle doesn't just deliver relentless and uncompromising performance; it also adheres to the latest emissions standards while enhancing efficiency and economy. This balance of power and responsibility is what makes the D-MAX stand out.

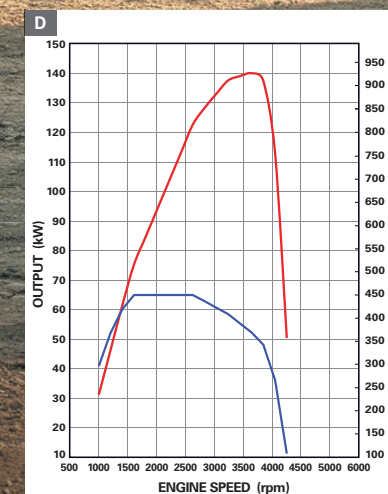

Every aspect of the D-MAX speaks volumes about its power to perform, inspiring confidence in every journey you undertake. With aggressive high torque at low rpm for acceleration combined with raw power, it's capable of conquering any task thrown at it. Power is the D-MAX's core, with endless precise applications for truly versatile driving.

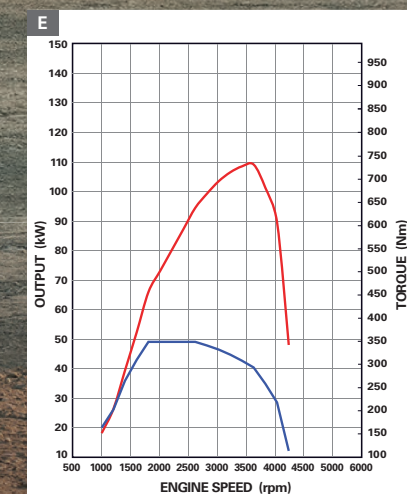

[A] **Engine:** Robust and refined reinforcing ISUZU's reputation for diesel durability.

[B] **Electric Control VGS Turbocharger:** Reduced lag, more power.

[C] **Combustion chamber:** Optimized combustion chamber minimizes emissions while boosting economy.

[D] **ISUZU 3.0L Diesel Engine Performance:** Max power 140kW (190ps) / Max torque 450 N.m

[E] **ISUZU 1.9L Diesel Engine Performance:** Max power 110kW (150ps) / Max torque 350 N.m

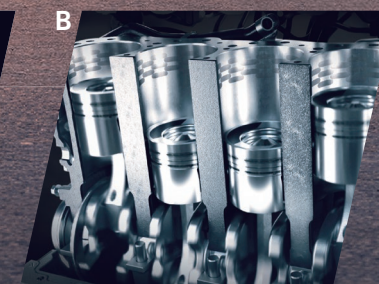

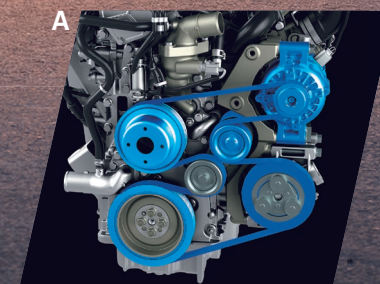

# BUILT TO LAST

The D-MAX is designed to serve your life without costing you time from what matters in life. Whether you are with family or at work, the D-MAX reliably exudes elegance and top-tier comfort on every journey.

Despite its lightweight build, the D-MAX excels in providing occupant safety, reducing noise and vibration, and enhancing overall stability. It's designed for easy upkeep with strong rust resistance and numerous components that require no maintenance.

The D-MAX is an extraordinarily high, wide, and resilient workhorse that upholds ISUZU's legacy of reliable trucks. This lineage of sturdiness can be traced back to ISUZU's very first pickup in 1963. The current D-MAX is a new apex in ISUZU's history, the legacy of the equivalent of over four million kilometers of rigorous testing during its research and development phase – both on-road and off-road.

With its prolonged service lifespan, the D-MAX is constructed to withstand any challenge. Life's too short for excuses. Push your limits, retreat to rest, and rise again for another round.

[A] **Single belt:** Single engine belt with auto tensioner minimises wear.

[B] **Melt-in liner:** The D-MAX's advanced anti-friction induction hardening process greatly strengthening the cylinders.

[C] **Hydraulic valve lash adjusters:** Work independently to boost durability.

The D-MAX has toughness that's always prepared, with intelligent design features that amplify its durability with true versatility.

No matter your destination, the D-MAX is always equipped for the job. Its dynamic suspension system reduces body roll while preserving payload, thereby improving ride comfort. The six-speed transmission, available in both manual and automatic, ensure you have complete command over your vehicle.

When it comes to off-road adventures, the D-MAX truly excels due to its extraordinary performance and durability in Rough Terrain Mode, shift-on-the-fly function, and an electronic rear-diff lock. Whatever the terrain beneath your wheels, the comprehensive under-body armor offers maximum protection against rocks, impacts, and unseen scrapes. With an impressive wading depth of 800mm and a compact turning circle of just 12.5 meters, it effortlessly maneuvers around wet or dry obstacles and is ready for more.

# MASTER OF ALL ROADS

- [A] **4x4 Performance:** Approach, departure and ramp over angles for even greater off-road capability.
- [B] **Under body protection:** Meets the challenge of the toughest terrain.
- [C] **Rear cargo:** Spacious and practical, with wide, flat loading area.
- [D] **Chassis:** Bigger and stronger, with greater torsional and longitudinal rigidity for improved handling, stability and durability.

# ADVENTURE IN COMFORT

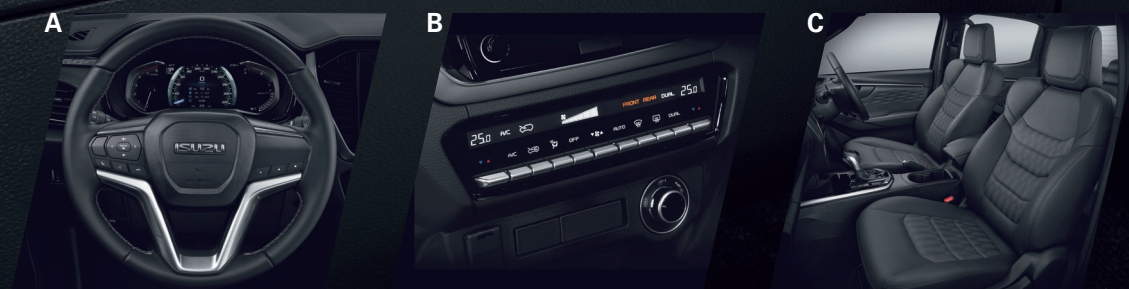

The ISUZU D-MAX is more than just a pickup; it's an embodiment of strength and sophistication, a mobile office, a haven of relaxation, and your gateway to luxurious adventures. Every feature in this vehicle has been tailored to cater to your needs, reflecting the sophisticated design concept that ISUZU prides itself on.

The interior design is impressive, exuding class with its spacious and well-appointed cabin. The D-MAX ensures easy entry and exit points for added convenience, creating a perfect blend of robustness and flexibility.

Every journey in the D-MAX is designed to be pleasurable. It boasts dual-zone climate-controlled air conditioning, cabin noise insulation, and minimal vibration for a smooth ride. Each seat provides both cushioning and lateral support for ultimate comfort. Storage options are plentiful and strategically placed throughout the front and back of the vehicle.

The driver's seat is ergonomically designed with eight different electric adjustments allowing you to find your ideal driving position, further enhanced by the steering wheel's tilt and telescopic adjustment capabilities.

Whether you're traveling with family or using it for work purposes, the D-MAX always stays one step ahead providing high-class comfort on every road journey.

[A] **Steering wheel:** Sporty and compact, with tilt and telescopic adjustment for the perfect driving position.

[B] **Dual-zone climate control:** The driver and front-seat passenger can set individual temperatures to suit their personal preference.

[C] **Leather-appointed seat:** Ergonomically designed, with anti-vibration elastic comfort foam and an eight-way adjustable driver's position.

# CONTROL AND CONNECT

The D-MAX features two individual displays that work together. A large 7-inch TFT display positioned at the center of the instrument cluster provides the driver with vital information at a quick glance, while the middle of the dashboard houses a separate touchscreen display that displays selected vehicle functions and entertainment options. Enjoy wireless Apple CarPlay™, Android Auto™ compatibility, and even voice recognition – plus a sound system with up to eight high-quality speakers. The system even features live clinometer readings to indicate the angle of vehicle incline, real-time status on the switch from 4x4 mode, and a control panel to select which selected ADAS functions. Additionally, multiple USB ports located both in the front and rear seating areas keep everyone's devices fully charged throughout the journey.

Adding to the ease and enjoyment of your driving experience are features like Walk Away Lock, which automatically secures your doors when you're more than three meters away, and Follow Me Home lighting, which illuminates the area around your D-MAX when you exit after dark.

Welcome to the most advanced D-MAX ever—designed just for you, with an array of intuitive technology that makes your life not just easier, but also more fun.

[A] **large 7" TFT Multi-Information Display:** Shows various vehicle functions according to the driver's preference.

[B] **Infotainment with Apple CarPlay™ and Android Auto™:** Replicates the functions of your smartphone while driving, including voice recognition.

[C] **Rear console with air-conditioning vent:** Comfort and the convenience of a USB port for back-seat passengers.

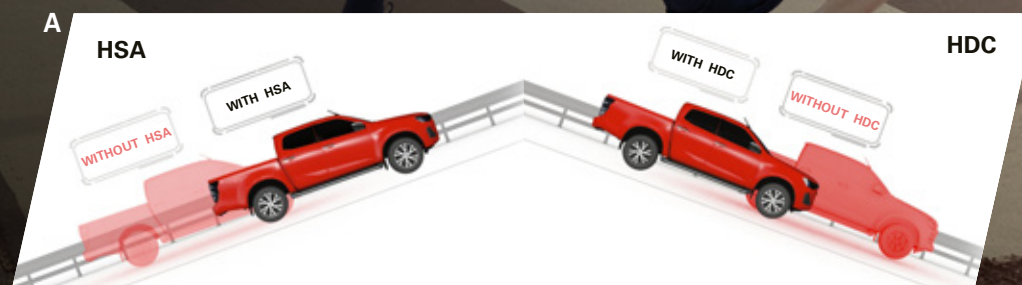

# SAFETY UNCOMPROMISED

The D-MAX isn't just about tackling the most challenging terrain, it's also about ensuring your safety on every trip. The vehicle is equipped with a range of automatic and independent safety features that often mitigate hazardous situations before you even notice them. Whether you're driving on or off-road, additional systems like Hill Start Assist (HSA) and Hill Descent Control (HDC) give you an extra layer of security.

The body of the D-MAX is reinforced to protect its passengers from impacts from any direction. It has larger front and rear brakes for enhanced stopping power, which can help avoid accidents before they happen. The seats are engineered to absorb shocks in case of emergencies, and if any of the multiple airbags are activated, the pickup's doors will unlock automatically.

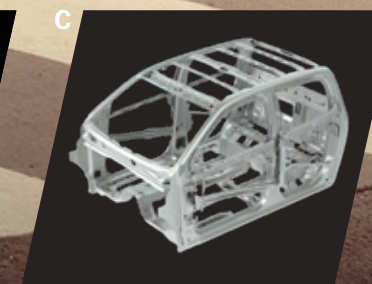

Moreover, the D-MAX takes into account the safety of pedestrians as well. Its Pedestrian Protection feature reduces potential harm to those outside the vehicle in case of an accident. So with D-MAX, not only do you get confidence in conquering tough terrains but also peace of mind knowing that you – and others – are always secure.

[A] **HSA and HDC:** Hill Start Assist and Hill Descent Control ensure maximum confidence in uneven terrain.

[B] **Airbags:** Expansive cushion shape for greater protection.

[C] **Reinforced cabin:** Fabricated with High Tensile Steel for outstanding strength and rigidity to create a passenger safety cell.

[D] **Bigger brakes:** Significantly reduced brake noise, significantly improved service life and brake feel.
